

Pneumatic Forklift Trucks

D15S / D18S-5 & D20SC-5

G15S / G18S-5 & G20SC-5

1,500kg to 2,000kg Capacity

PRO5
SERIES

Durable and operator-friendly

At Doosan, we pride ourselves on our reputation for designing durable, dependable and operator-friendly counterbalance forklifts. Providing a well balanced mix of enhanced technology and proven components, 1,500kgs to 2,000kg Pro-5 range adheres closely to this ethos.

Improving productivity and lowering operation costs, the range introduces a number of operator comfort refinements, advanced servicing features and performance efficiencies:

High powered and fuel efficient Diesel LPG engines

Operator Sensing System (OSS)

Power reversal transmission

Lift and tilt locking hydraulic valve

Virtually maintenance-free oil cooled disc brakes

Refined operator compartment

Boost your productivity

Our ergonomically designed and spacious operator compartment, combined with a variety of operational enhancements, facilitates easier operation, improving comfort and helping to boost productivity.

Operator Friendly Features

- Spacious and Well Planned Operator compartment
Ample operator leg room, tiltable steering column and ergonomically positioned operator pedals combined with a low cowl height facilitate ease of operation.

- Integrated Instrument Panel

The integrated instrument panel provides critical information instantly. Fuel, oil pressure, temperature and hour usage are clearly indicated, whilst additional status information on the mast interlock feature, transmission status, seat belt, and brake oil level keeps the operator fully aware of all vehicle performance systems.

- Convenience Package

Provides excellent storage for paperwork, refreshments, small tools, etc.

- Auto Tilt Leveling (Optional)

Returns the mast to the upright vertical position at the push of a button.

- Operator Sensing System

- ✓ Parking alarm : Alarm warning when operator leaves the seat without applying parking brake
- ✓ Seat belt indicator : 10 second warning light reminds operator to fasten seat belt.
- ✓ Neutral shift feature : Transmission is automatically shifted into neutral when the operator leaves the seat with the engine running and the direction lever in forward or reverse

- Rear Grab Bar with Horn (Optional)

Enables horn activation to alert surrounding personnel without the need to look away from the direction of travel.

Easy to Service, Efficient To Run

● Integrated Electric Components

Both the fuse and relay boxes are located in front of the engine to facilitate easy maintenance.

● Dual Element Air Cleaner

Heavy duty air cleaning system extends the engine service life and allows clean, cool air into the engine intake.

● Tool-less Side Cover And Footplate Removal for Ease of Service

High Powered, Fuel Efficient Performance

All our powerful diesel and LPG engines are compliant to the current regulations for reduced emissions. These in-line, 4-cylinder, water cooled, overhead valve engines provide high torque at low engine speeds for applications requiring ramp loading and unloading, fast lift speeds, or heavy hydraulic flow requirements.

- 2.4 Litre Diesel Engine (KUBOTA)
for D15/18S-5, D20SC-5

The V2403 2.4 Litre diesel engine is well tuned and recognized for industrial applications, having high fuel efficiency, low emission and low noise. With features such as high rated power, a built-in solenoid, low fan position, and engine side serviceability, this engine offers excellent performance for Doosan forklift trucks. The V2403 also complies with all EU Stage-3A emission requirements.

- 2.4 Litre LPG Engine (HMC)
for G15/18S-5, G20SC-5

This engine includes a silent chain timing belt that aids in the reduction of noise levels and helps to improve efficiency. An aluminum cylinder block and oil pan also help to reduce noise. Additionally, fuel efficiency is increased thanks to the use of abrasion resistant materials and specially designed 'beehive type' valve springs.

A Hallmark of Durability and Reliability

Doosan's goal is to make your material handling operation as efficient and reliable as possible by minimizing your forklift downtime to reduce overall maintenance cost.

- Oil- Cooled Disc Brakes (ODB)

Virtually maintenance-free, ODB equipment is optional on the forklifts. The enclosed brake system eliminates outside contamination, significantly extending the brake life by up to 5 times when compared to conventional shoe brakes.

- Power reversal transmission

The top mounted control valve:

- ✓ Accurately modulates clutch oil pressure
- ✓ Provides smooth forward / reverse direction changes
- ✓ Extends transmission life

The top located test ports are also simple to check and easy to clean.

- Full floating drive axle

A solid one-piece cast iron housing ensures axle components are closely aligned, whilst the high tensile alloy steel shaft extends axle life and allows high torque to be transmitted to the drive wheels.

- Hydrostatic steering system

- ✓ Fully hydrostatic steering
- ✓ Self-aligning taper roller bearings
- ✓ Designed to operate in contaminated environments and high impact applications
- ✓ Low effort steering and faster response

- Increased Cooling Capacity

Aluminum radiator provides excellent cooling capacity with improved air flow.

World-class service network

You will receive the best after-sales service from your authorized local or national factory-trained dealer, backed by Doosan's own customer service center. Doosan provides a 100% parts inventory to ensure that any downtime is minimized.

When you own a Doosan forklift, our high quality, responsive customer support team comes with it. The Doosan network starts with your local dealer and ends with a national team of highly qualified and experienced personnel standing ready to support all your material handling needs.

Option Availability

● : Standard ○ : Optional n/a: not available

Options	D15/18S-5, D20SC-5	G15/18S-5, G20SC-5
Drive in Rack Overhead Guard	○	○
Oil-Cooled Disc Brakes	○	○
Fuel Cap with Key	○	○
Precleaner	○	○
Vertical Exhaust Tube	○	○
Catalytic Muffler	○	○
Modular Operator Cabin	○	○
Radiator Screen	○	○
Non Marking Tire (Solid)	○	○
Spark Arrester (w/o Cabin)	○	n/a
Mono Pedal: Direction and Acceleration	○	○
Fingertip Control System	○	○
Autoshift (Single, Dual Tire)	○	○
Engine Shutdown	n/a	●
Swingout LP MTG	n/a	○
Swingdown LP MTG	n/a	○
Lift and Tilt Locking Hydraulic Control Valve	●	●
Auto Tilt Leveling	○	○
Rear Grab Bar with Horn	○	○
Hydraulic Accumulator	○	○
Integrated Sideshifter	○	○
Integrated Shifting Fork Positioner	○	○
Hook on Sideshifter	○	○

* Catalytic muffler is standard for Tier-3 E/G only

Remark: This list is based on factory data. Standard or optional options can vary for specific countries.
