

Nostolift 24

Nostolift 24 - versatility with extremely low transport height

Low transport height combined with very narrow jacking is what Nostolift 24 is about. With under 2,5 meters of transport height this unit will certainly go places where others cannot.

Nostolift 24:n has a straight telescopic boom. For more versatility the model also has a movable jib and continuous rotation of the turret. A rotating basket is also a standard feature on Nostolift 24.
